

The Lehi Department

Water Hogs to Be Shut Off

Those Found Wasting City Water Will Either Be Put On Meter Rates or Disconnected Altogether.

The regular session of the City Council was held Tuesday evening with all the members present except Councilmen Hopkins and Wing. The water problem absorbed most of the time. It appears that many are using the water from the city mains contrary to rules. Some are using it for irrigating their gardens and place a quilt over the end of the hose to disguise its running. Instructions were issued to the superintendent to search diligently for these water hogs and to either put them on a meter or to shut them off entirely.

A dozen or fifteen families, neighbors of John Wood, have been asking for months to have the mains extended to their homes. It was voted to tap the main line near J. C. Love's home and to connect them up, provided the new users would dig the trench, the work to apply on future rates.

The city recently secured an opinion of the attorney general to the effect that the irrigation company was liable for helping to take care of the street crossings and culverts. Accordingly the committee will present half of the bills on this account to the irrigation company.

B. C. Earl asked to have the railroad crossing near his home improved. Joseph College and others asked for a fire hydrant near C. A. Turner's home, and citizens asked for a street light near where the Provo River Reservoir company's canal crosses the State Road; all of which petitions were referred to the appropriate committees.

The city marshal asked for instructions regarding the sale of beerette, also regarding the sale of pennants and permission to draw for merchandise, which were referred to the proper officials.

It was stated that the city had purchased a lot of the histories of Lehi, and the recorder was instructed to learn the names of the public libraries of the state so that the librarian could mail one to each of them.

Registration agents for the coming city election were appointed as follows: District No. 1, Mrs. Evelyn Peterson; District No. 2, Mrs. Ellen Thomas; District No. 3, Mrs. Nellie McAfee; District No. 4, Mrs. Martha A. Taylor. The city recorder was authorized to purchase the necessary election supplies.

John Bradshaw asked for the privilege of moving his fence six feet further into the street and changing a ditch so that he could lay a sidewalk in front of his new home. The matter on streets will investigate.

Bills aggregating \$462.70 were allowed.

Canning Factory Manager Arrives

Work Commences On Big Warehouse That Will Hold Nearly a Million Cans of Tomatoes—Plant to Commence Operating In About Ten Days.

M. B. Mann of Bountiful, who will superintend the Lehi Canning factory for its first season's run, arrived in Lehi Monday to get things ready for the campaign, which will commence in about ten days or just as soon as sufficient tomatoes are ripe. Mr. Mann has had charge of the Woods-cross Canning plant for the past seven years and is considered one of the best canning men in the state. He will want fifteen men and boys and thirty girls, all of whom will be from Lehi. It is estimated that the plant will run for about fifty days and put up 360,000 cans of tomatoes. A car load of these cans will arrive from Ogden next week and be stored on the top floor of the building. A car load of picking and packing boxes will arrive next week from Oregon, and the picking boxes be distributed among the growers.

A force of men under the superintendency of W. S. Evans and H. C. Featherstone Tuesday put in the cement floor for the big unloading porch at the south end of the building.

The D. & R. G. railway will build a spur to the factory in the near future, so that shipments may be made either over the Orem or D. & R. G.

The board of directors held a meeting Tuesday and voted to erect a

big warehouse at once to the west end of the building. It will be about 85 feet long, 60 feet wide and from 12 to 18 feet high. It is intended to hold three-quarters of a million cans of tomatoes. The brick will come from the Slater brick yards, the lime from the sugar factory and all the work be done by Lehi people; so that the building and operation of this factory will mean the employment of much local help.

Meets Death In Accident at Eureka

Melvin Mayberry Falls Sixty-Five Feet in Grain Elevator and Lives Five Hours Afterward.

Melvin Mayberry met a shocking accidental death at Eureka last Saturday. He with a dozen other men had been working for the past two months building a 50,000 bushel capacity concrete grain elevator for Jesse Knight about five miles west of Eureka. The elevator was a four compartment affair seventy-five feet high, similar in construction to the one which the same company had build for George G. Robinson. The men had just completed the main structure, including the roof, and were removing the inside scaffolding which was being taken out through a hole in the roof. They let themselves down with a rope to some plank that formed a platform six or eight feet from the roof. The men had removed most of the plank and Hershel Walker was inside removing the others. Mr. Mayberry asked if he should come in and help, and was told no. Evidently misunderstanding the order he let himself down on the rope and it is thought that when he reached where the plank had been removed, he lost nerve and slipped off the rope.

He fell 65 feet, alighting on a cement floor. He was picked up unconscious, and Israel Anderson carried him to a bed. It was found that both feet and ankles were broken and the bone had protruded through one shoe. The lower end of his backbone was crushed almost to a jelly and several other bones were broken.

John Woods came along with his rock train just as the accident happened and ran his engine down to Eureka Junction and telephoned to Eureka for a doctor who arrived soon after. A local freight came by and the doctor took his patient on the caboose to Eureka, where every thing possible was done, but he gradually failed, and at 9:15 passed away. He regained consciousness soon after the accident and complained of great pain until relieved by the doctor.

Israel Anderson, who tells the story of the accident, had the body embalmed and brought it home Sunday morning. He said that Mr. Mayberry was ambitious to become a good carpenter and cement finisher, and that he was thought the world of by both the workmen and those in charge of the work.

Melvin Mayberry was the son of Mr. and Mrs. Abe Mayberry. He was 22 years of age on the 16th of last May. A year ago on the 26th of June he was married to Miss Alice Street, whom he leaves a widow with a baby about four months old.

Funeral services were held in the Tabernacle Tuesday afternoon. The house was well filled and many beautiful floral tributes were presented. Bishop John Stoker of the Fourth Ward presided and was one of the speakers. The other speakers were: Israel Anderson, James M. Kirkham and Dr. F. D. Worlton. A solo was sung by Mrs. T. F. Kirkham. The other musical numbers were by the Fourth Ward choir.

NEW JITNEY SERVICE

William Garn of Cedar Valley, was in Lehi Tuesday and took an afternoon Interurban for Salt Lake, where he intended purchasing an automobile with which to conduct a "jitney" service between Lehi, Cedar Fort, Fairfield and Toplift. He had not yet determined which place he would make his headquarters.

NEW DRUG STORE OPENS NEXT WEEK

Leonard Adams has been receiving a lot of his fixtures and supplies for the opening of his new Drug Store in the new Racker Block, which is expected to take place next week. The prescription case, soda fountain and some of the show cases have arrived. He will occupy the west one of the three rooms.

Telephone Users Ratify Agreement

Old Conditions Being Restored—There Will Be No Independent Telephone Company.

A meeting of the telephone users held in the assembly rooms Monday evening ratified unanimously, with the exception of one vote, the agreement with the Mountain States Telephone Company, which restores conditions in Lehi to what they were six months ago.

Hereafter there will be no charges for service between any of the exchanges in this end of the county. The four party service at the rate of \$1.75 per month will be re-established. All 5 cent charges for August will be rebated. Those who had their phones removed may have them reinstated without extra cost. Business men will be required to sign new contracts at a rate of 50 cents more per month than they are now paying. These things are all embodied in an offer that was made by A. H. DeNike, managing superintendent of the Western Division. The propositions were accepted by the committee last week, and being accepted by the telephone users, they are now effective and binding.

To get the four party service, four people in the same locality must write in asking for it, as there will be no more one, two and three party service at four party rates. Under the old practice it was often the case that people were paying for 4-party service with only two people on the line. Representatives will be around in the near future asking all those who had their phones removed, to have them put in again, and it is predicted that within a month the local exchange will be larger than ever.

At the meeting Monday night, A. J. Evans and Edward Southwick explained the history of the movement for an independent system. The committee had secured franchises from the city councils of Lehi, American Fork and Pleasant Grove. Data on the cost of installing the system had been secured from eastern houses and compiled, and the committee was about ready to start soliciting for stock to install the system. A system for these three towns would cost from \$70,000 to \$80,000, and the tightness of the money market would have made it very difficult to finance a new company. This with the desirability of being connected with a general system caused the acceptance of the company's offer, and as long as the telephone company maintains its present high efficiency with the new rates agreed upon, it is probably there will never be any more agitation for another company.

A vote of thanks was tendered the telephone committee for its efficient service. Mr. A. G. Krauss was the diplomat of the telephone company. He gained many friends among the people and deserves much praise for the manner in which he ended the war and restored peace and good fellowship.

Lehi Wins First Game of Series

Lehi won from American Fork Wednesday afternoon with a score of 10 to 9 in the first of the series of three to determine the north end county championship. Lehi opened with four runs in the first inning and held the lead until the seventh, when her rival scored four runs placing her two ahead.

In the last half of the ninth Jackson made a safe hit and gained first base. He was followed by N. Turner who soon reached second. Danny Smuin brought Jackson and Turner home; and later George Holmstead landed a safe one out in the left field which let in N. Turner and the game was won.

Taken altogether it was a game that pleased the fans, and was full of uncertainty until the last run was made. The second of the series will be played at American Fork, and an effort is being made to have all the business houses closed so that every body may attend the game.

Following is the lineup:
Lehi
A. M. Turner..... c Am Fork
A. Jackson..... p Osborne
Geo. Holmstead..... ss Miller
Goodwin..... 1b H. Holmstead
Sabey..... 2b Walker
Zimmerman..... 3b W. Barratt
Garff..... if Birch
N. Turner..... rf Parker
Smuin..... cf Webb
Larson

BIG FEATURE NEXT WEEK

"The Man on the Box"

"The Man on the Box" in over 300 scenes and with a specially selected cast of 160 people, headed by Max Figman and Lolita Robertson, will be our next big feature. It is the latest release of the Jesse L. Lasky Feature Play company, producers of "The Squaw Man," "Brewster's Millions" and other highly successful motion picture productions. As a novel "The Man on the Box" is now selling in its tenth edition and as a stage play, ran for two seasons in New York and enjoyed huge popularity as a touring attraction. It is in five parts, and in addition to enjoying many sensational features, contains a vein of romance which makes it one of Lasky's most attractive productions.

This Big Feature Comes Next Week on Wednesday and Thursday

: ROYAL THEATRE :

Only Two Weeks

Golden Gate Contest Closes

On the Evening of Aug. 31st.

WHO WILL WIN?

SOME OF THE CONTESTANTS ARE WORKING HARD—THERE WILL BE A LOT OF VOTES CAST DURING THE NEXT TWO WEEKS

TWO FREE TRIPS

To the Panama Exposition at Our Expense

WHO SHALL IT BE? THE VOTES WILL DECIDE

The two ladies having received the highest number of votes by August 31st will be awarded these free vacation trips—Help your favorite win.

DOUBLE VOTES—In accordance with the regulations which were published at the time we started our Trade Extension Plan, we have on several occasions given 200 votes for the dollar on single days only.

BEGINNING NEXT MONDAY and continuing until the end of the Contest, August 31, 1915, we will give double votes, two for one in every department, also on all accounts paid during this time—200 votes on every dollar or fraction thereof.

FALL GOODS ARRIVING—Our stocks are being replenished every day by the arrival of new fall goods.

BUY NOW WHAT YOU WILL NEED LATER—And thereby help your favorite candidate by getting two votes for one.

GOODS ARE ADVANCING IN PRICE—Many lines of goods will be higher later on, as some manufacturers have already advanced their prices, for various causes, so there will be nothing to gain by delaying your purchases—our goods were bought early, before any advance took place and we are in a position to take care of your wants now—BUY NOW for your later needs.

TWO VOTES FOR ONE—CONTEST CLOSES SURELY AUGUST 31ST.
